I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

THE WAR IN EUROPE. The probable change in the relations of Austria towards the belligerents, which is referred to in the following letter from London to the New York Times, has been anticipated from the beginning by many observers, in this country. When that change takes place, the war will in reality commence—for the people will then, and not until then, become parties to it. The popular element in Europe is now held in abeyance by the anomalous position of the Austrian and Prussian governments—anomalous, because with all their sympathies and interests bound up in the continued preponderance of Russia, they are found, nominally at least, arrayed against her. These monarchs are held back only by fear of their own subjects, from making common cause with Nicholas. It is more than suspected, too, that their present position is taken with the full concurrence of the Czar who is not anxious to have a popular war on his hands just yet.

"The government of Great Britain, though reluctant to begin the war, and not seriously decided upon carrying it on with the necessary energy *so long as the Czar may be made to believe that he has no allies, and, accordingly, no chance of success*, has determined to employ all the elements at its disposition, at the moment when Austria shall have disappointed the expectations based on her friendly assurances.—The war until now has been only a cessation of peace. The whole solicitude of the Western allies has been, until within a day or two past, to secure the Austrian alliance in order to escape thoroughly, as they hope the real war.—Nothing, however, has been fit undone to set instantaneously, and with the utmost vigor, upon the failure of exertions in that direction. Mazzini has left England with far less precaution than he would have felt bound to take, unless sure not to be denounced by the English police to those whom it would very much concern to know the whereabouts of the Italian leader. Kossuth has the direct assurance of the Sultan's government, and the indirect notification of the British Cabinet, that his presence in Constantinople, and especially on the frontiers of Transylvania will be desired at the shortest possible notice, upon any fresh attempt on the part of Austria to evade her promise to regard the march of the Russians towards the Balkan as a *casus belli* for herself. He is, of course, at the disposition of the allies for such ends, although he will not bind himself to inactivity should the contingency of his being called upon not present itself to England. The Poles are organizing themselves not only in Turkey, but also in Paris and London, and it is a *telling* fact, and one not yet made public, that the subsidies that were paid to them so late as the year 1850, when they were mostly suppressed by the Napoleonic regime, are once more renewed and on a more extensive scale, as a military prepayment for services to be rendered hereafter.

As soon after the annual election in New Hampshire last March as returns could be gathered at Concord, the telegraph announced, as from headquarters, McFarland & Jenks, publishers of the Statesman, the gratifying intelligence that a majority of opponents to the Nebraska iniquity were returned to the House of Representatives, and "that no man in whose garments is even the smell of favoring the Nebraska bill can be chosen Senator to Congress from New Hampshire." On the other hand the administration organ claimed a majority of 20, and on no account would consent to come down below 16 majority for Senators. In this state of conflicting testimony, we were compelled to await the decision of actual results. After four trials in the House on two different days to elect a Senator for the short term, the subject has been indefinitely postponed by five majority—showing a result wide of the mark set by the Patriot with every prospect that the attempt to elect for the long term will be even more unfavorable to the administration candidate; thus fully justifying the announcement of the publishers of the Statesman. We have generally found their statements to be reliable.

The Concerts of the *Mendelssohn Quintette Club* in this city, have drawn crowded houses. Their success has indeed been exceedingly gratifying, not only as a testimony to their high ability as musicians, but as evincing a cultivated and discriminating musical taste on the part of our citizens. The execution of some of the choicest gems of art was such as to compare not unfavorably with that of the greatest masters.

Mrs. Wentworth, as a vocalist, is certainly unsurpassed by any American artist whom we have heard, in sweetness and compass of voice.

A Concert of Sacred Music selected from the Grand Oratorios of "Messiah," "The Creation," "Stabat Mater," &c., will be given by these excellent performers, to-morrow evening.

LAUNCH AT CASTINE. Messrs. S. & J. H. Noyes & Co., launched from their yard at Castine, on the 22d inst., a splendid ship, named in honor of a distinguished merchant of the place—the "Samuel Adams." She registers about 1200 tons, is 183 feet long, has forty feet extreme breadth of beam, and 24 feet depth of hold.—[Mercury.

SUPREME JUDICIAL COURT—Thursday, June 23. The Jury disagreed in the case of Thaxter as a common seller—indicted for selling strong beer.

The following sentences were pronounced:

Upon Matthew Welsh for assault on John Lord $2; upon same for assault on officer Pratt, $20.

Upon Peter Dalton, for larceny, one year in the State Prison.

Upon Samuel B. Smith, for uttering forged orders, two years in the State Prison; upon same, for larceny, one year in the State Prison.

Upon Alexander Watson, for larceny, eighteen months in the State Prison; upon same, for larceny, eighteen months in the State Prison.

Upon Ephraim York, for assault, fined $25, which was paid.

In the 19th Congressional District of Pennsylvania, a nomination by the Democrats was recently made, by a popular vote of the party. The issue was on the Nebraska measure—and the candidates were, Hon. Augustus Drum, the present member, who voted against the bill, and Judge Todd, who supports its principles. The result was the re-nomination of Mr. Drum by a majority of 1561 votes. This is another signal indication of the contempt with which Mr. Pierce's administration is regarded by the masses of his own party.

Mrs. Emma A. Wentworth, and the Mendelssohn Quintette Club have generously volunteered to give a Free Concert to the teachers and pupils of the public schools to day, at noon, commencing at precisely quarter before 12 and closing at one o'clock.

It has been proved in one of the London courts that the outer edges of pieces of silk are sometimes made of a better quality than the interior. The work upon the Washington National Monument, it is said, must soon stop for want of funds, unless prompt efforts are made. The monument is intended to be 517 high, and it has now reached 154 feet, at an expense of $230,000.

A "devil fish," recently captured in the harbor of Charleston, S. C., is described as 17 feet from tip to tip, weighing a ton and a half, with a mouth two feet and a half across, and an ugly looking customer generally. He was thought to be an abolitionist in disguise.

THE DEMOCRATIC CONVENTION. Of the doings at Portland on the 21st, the State of Maine says:

No resolutions no address, or declaration of principles, was made or offered. No allusion was made, to the national administration—Nothing was said endorsing Franklin Pierce or the Nebraska bill; and the committee on resolutions presented a single issue; viz: an adjournment to meet their fellow citizens at the polls.

Upon the great question of the day, the extension of slavery, the convention was *upon the fence*—and they have nominated for their candidate a man who fully represents their views, for he is one who has sat upon the fence during the whole course of his life. The convention presented the most extraordinary spectacle which it has been our fortune ever to witness.

Foremost during the delegates was George W. Stanley United States Marshal for Maine, and John Babson, Collector of Wiscasset. Collectors Bradbury of Eastport, Jones of Ellsworth, Bodish of Bath, and others, were seen amongst the most anxious of the faces in the crowd.

There was an air of gloom, of despondence, and of restraint, over all the proceedings of the convention, until the sacrifice of Mr. Pilsbury was effected, and the nomination of Governor Parris declared unanimous. Thus being done, the spirit of the convention broke forth in the most extravagant expressions of joy. Colonel Rice of Hallowell, moved that the convention choose a State Committee, and adjourn forthwith.

A call was made for resolutions, a declaration of principles, or something of that sort.—Charles Jarvis of Ellsworth, declared that they wanted no resolutions—they had nominated a candidate for Governor, and this was enough.

Have we no principles? Shall we not endorse the administration? were the inquiries on all sides, when the Chairman put an end to this by calling for nominations for the State Committee. This went on harmoniously till they reached Waldo. A gentleman from Searsport said Adams Treat, of Frankfort was nominated by the delegation. J. G. Dickerson of Belfast, denied the statement, and nominated Mr. Gross of Camden. A most painful and exciting debate grew up between the two parties from Waldo, which had not subsided when Mr. Moor of Bangor, moved, on behalf of the Committee on resolutions, an adjournment to the polls in September, which was carried, and the members generally left the hall.

The Waldo delegation remained, and finally reported the name of T. B. Gross of Camden, for State Committee.

A LARGE FARM.—Mr. Solomon Sturges, of Putnam, Ohio, and his brothers, E. P. and E. Sturges, of Mansfield, have purchased one hundred thousand acres of land in Northern Illinois, for a farm, and have already commenced its cultivation on an extensive scale. By the aid of the most improved implements of husbandry and the employment of steam, they expect to put in about a hundred acres a day. It is said there is an elevation on which a man can stand and overlook a circumference of 30 miles of country, and even as the eye ever rested upon. This is intended to be the model farm, and the most extensive in America.

The Anti-Nebraska Members of Congress' Address to the People.

WASHINGTON, June 24.

At a meeting of the members of Congress who opposed the passage of the bill to organize the territories of Nebraska and Kansas, held pursuant to previous notice here, on the 20th inst, Hon. Solomon Foote of Vt., was elected chairman, and Hon. Daniel Mace of Ind., and Hon. Reuben E. Fenton of New York, were appointed Secretaries. A committee appointed for the purpose, reported an address to the people of the United States, which, having been discussed and amended was unanimously adopted, and ordered to be published.

To the People of the United States: The eighth section of the act for the admission of Missouri into the Union known as the Missouri Compromise by which the introduction of slavery into the regions now known as Kansas and Nebraska was forever prohibited has been repealed. That law, which in 1820 quieted a controversy menacing the Union, and upon which you have so long reposed, is obliterated from the statute book.

We had no reason to expect any such proposition when we assembled here six months ago, nor did you expect it. No State, no citizens of any State, had demanded the repeal. It seems a duty we owe to the country to state the grounds upon which we have steadfastly, though ineffectually, opposed this alarming and dangerous act.

You need not be told the slavery question lies at the bottom of it. As it was the slaveholding power that demanded the enactment of the Missouri Compromise, so it is the same power that has now demanded its abrogation. African slavery was regarded and denounced as a great evil by the American Colonies even before the Revolution; and those colonies which are now slaveholding States were equally earnest in remonstrances with those which are now free States. Colonial laws, framed to prevent the increase of slavery were vetoed by the King of Great Britain. This exercise of arbitrary power to enlarge and perpetuate a system universally regarded as equally wrongful in itself and injurious to the Colonies, was one of the causes of the Revolution.

When the war was ended, there was an imperious necessity for the institution of some government in the then unoccupied territories of the United States. In 1784 Jefferson proposed, and in 1787 the Continental Congress adopted the ordinance for the government of the territory lying northwest of the Ohio, by which it was declared that there shall be neither slavery nor involuntary servitude, except for the punishment of crime.

The great and flourishing States since organized under that ordinance, are enduring monuments of the wisdom of the statesmen of the revolution. The foreign slave trade was regarded as the source of American slavery, which would be dried up when that fountain was closed.

In adopting the Constitution it was universally anticipated that the foreign slave trade would be promptly prohibited, and all parties acquiesced in a stipulation postponing that measure till 1808. The foreign slave trade was prohibited; thus the source of slavery was understood to be dried up, while the introduction of slavery into the territories was distinctly prohibited. The slavery question, a national one, was understood to be finally settled; at the same time the States had already taken up and were carrying forward a system of gradual emancipation.

In 1803, Louisiana was acquired by purchase from France,—and included what is now known as the States of Louisiana, Missouri, Arkansas, and Iowa, and the territory known as Kansas and Nebraska. Slavery existed at the time in New Orleans and St. Louis, and so this purchase resulted in bringing the slavery question again before Congress. In 1812 the region immediately surrounding New Orleans applied for admission into the Union under the name of the State of Louisiana, with a constitution tolerating slavery, and the Free States acquiesced.

Eight years afterwards, the region connected with St. Louis demanded admission under the name of the State of Missouri with a constitution tolerating slavery. The Free States reverted to the principle of 1787, and opposed the admission of Missouri, unless he would incorporate into her constitution an inhibition of the further introduction of slavery into the State.

The slaveholding States insisted upon her unqualified admission. A controversy arose, which was relentless and embittered, and which we are assured by contemporaneous history seriously imperilled the Union. The statesmen of that day settled the controversy by compromise.

By the terms of this compromise the Free States assented to the admission of Missouri with her slaveholding constitution,—while the slaveholding States on their part yielded the exclusion of slavery in all the residue of territory which lay north of 36 30, constituting the present Territories of Kansas and Nebraska. The slaveholding States accepted the compromise as a triumph, and the Free States have ever since left it undisturbed and unquestioned.

Arkansas, a part of Louisiana, which lay south of 36 30, in compliance with the implication which was contained in this compromise, was afterwards admitted as a slaveholding State, and the Free States acquiesced. In 1819, Florida, a slaveholding province of Spain, was acquired. This province was afterwards admitted as a slaveholding State—the Free States again acquiesced.

In 1845, Texas, an independent slaveholding State, was admitted and annexed, with a provision in the articles of annexation for the subdivision of her territory into five States. The free States, though they regarded the annexation, with the probable increase of the number of slave States, with very great disfavor, nevertheless acquiesced again.

New territories were acquired by the treaty of peace which closed the war with Mexico.

The people of California formed a constitution inhibiting slavery, and applied for admission into the Union. Violent opposition was made by the Slave States, in and out of Congress, threatening dissolution of the Union if California should be admitted. Proceeding on the ground of these alarms, Congress adopted another compromise, the terms of which were, that ten million dollars of the people's money should be given to Texas, to induce her to relinquish a very doubtful claim upon an inconsiderable part of New Mexico, and Utah should be organized without inhibiting slavery, and that they should be afterwards admitted as slave or free States, as the people, when forming constitutions, should determine; that the public slave trade in the District of Columbia should be abolished without affecting the existence of slavery in the District; and that new and rigorous provisions for the recapture of fugitive slaves, of disputed constitutionality, should be adopted, and that on these grounds California should be admitted as a free State.

Repugnant as this compromise was to the people of the Free States, acquiescence was practically obtained, by means of solemn assurances made on behalf of the slaveholding States, that the compromise was and should be forever regarded as a final adjustment of the slavery question, and of all the issues which could possibly arise out of it.

A new Congress convened in December, 1851. Representatives from the slave States demanded a renewed pledge of fidelity to this adjustment, and it was granted by the House of Representatives in the following terms:

Resolved, That we recognize the binding efficacy of the Compromises of the Constitution, and believe it to be the intention of the people generally, as we hereby declare it to be ours individually, to abide by such Compromises, and sustain the laws necessary to carry them out—the provisions for the delivery of fugitive slaves, and the act of the last Congress for that purpose, included; and that we deprecate all further agitation of questions embraced in the acts of the last Congress, known as the Compromise, and of questions generally connected with the institution of slavery, as unnecessarily useless and dangerous.

A few months subsequently the Democratic Convention met at Baltimore, and assuming to speak the sentiments of the Democratic party, set forth in its platform that the Democratic party will resist all attempts at renewing, in Congress or out of it, the agitation of the slavery question, under whatever color or shape the attempt may be made. Soon afterwards another National Convention assembled in the same city, and assuming the right to declare the sentiments of the Whig party, said—"We deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made."

To be continued.

Ward Delegates.

The following are the delegates elected to the Whig State Convention, at the several Ward Caucuses held last evening:

Ward 1. In this Ward, John Short and F. F. French were chosen by 18 votes to none in opposition—the polls being closed at twenty minutes before 8 o'clock. Subsequently a meeting was called to order upon the steps of the Ward room, and Samuel Thatcher, Jr., and Charles S. Crosby, chosen as delegates.

XXXIIId CONGRESS.

WASHINGTON June 20.

SENATE. Mr. Seward, from the Committee on Commerce, reported adversely on petition for government aid to construct a ship canal at Niagara Falls.

Mr. Hamlin reported a bill amendatory of the steamboat laws.

Mr. Seward introduced a bill regulating navigation of American owned vessels from the West Indies to the coast of Africa.

The Naval bill, after some amendment, was passed by a vote of 24 to 11.

Mr. Seward's bill provides that any American vessel which shall be sold in any of the W. India Islands, shall return to the United States before making any voyage, and obtain a register. Also declares any commerce carried on in American vessels between the Spanish West Indies and the coast of Africa unlawful. Laid on the table.

HOUSE. Messrs. Churchwell and Cullom each apologized to the House for the scenes of yesterday.

Mr. Brooks gave notice that he would introduce a bill expelling, by a two-thirds vote, any member bringing concealed weapons into the House.

VERMONT DEMOCRATIC CONVENTION, *Montpelier, Vt.*, June 21. The Democratic State Convention met here to-day. Erastus Plympton of Waldoboro' presided.

Merritt Clark of Poultney was nominated for Governor, and William Maltock of Peacham for Lieut. Governor.

Resolutions were passed complimenting the administration of Franklin Pierce in strong terms, but declaring the support of, or opposition to, the Nebraska bill, should not be a test of party faith.

Another despatch says the Convention broke up in a row, on a resolution approving the Nebraska measure.

During the severe thunder shower of the 9th instant, the store of Mr. Francis Stowers, at Weeks' Mills, New Sharon, was struck by lightning. The lightning passing from the building to Mr. Stowers, who was sitting near the door, was conducted down his person from his shoulders, in a spiral direction to one foot, tearing off his clothing, ripping open his boot and making a hole through the floor. Mr. S. was seriously, but not fatally injured.

Extract of a letter from Jane Jenkins, of Apalachicola, Florida, to Professor Holloway.—"I suffered for seven months from jaundice and bile, arising from a very disordered state of the liver. During this time, although I tried many remedies, I obtained no relief to my sufferings. At length I purchased a quantity of your Pills, and after using five boxes, I was perfectly cured, and with confidence recommend to others who are thus afflicted."

KENNEDY'S MEDICAL DISCOVERY
The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it.

ROXBURY, Sept. 19, 1853.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of this delicate part of the human system.

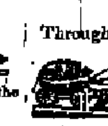

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids,—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with or distort facts, nor overstate their convictions. Judge then, whether this is not the medicine to trust when you must have relief for the throat or lungs; judge, too, whether every family ought not to have it by them as a safeguard against the everywhere prevailing enemy, which steals with fatal frequency upon almost every flock, and carries off the lamb from many a home?

Jackson, C.H., Jackson City, O., 20th Nov., 1852.

DR. J. C. AYER.—SIR: The CHERRY PECTORAL is much inquired after. Several of our best Physicians have used it, three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them, lead to incredulity in regard to every new remedy; and it is only after undoubted evidence of value in any article, that any thing like a general confidence can be excited.

The unrivalled excellence of this combination of agents, in the Cherry Pectoral passed beyond cavil by repeated trial under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best gradual remedy we have for the Pulmonary Affections of this climate, at the same time sedative and expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe myself, Respectfully your ob't servant,
JAS. H. C. MILLER, M. D.

Allegan, Mich., 10th Jan'y, 1853

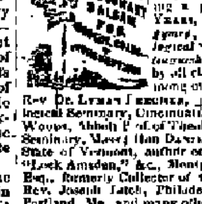

Dear Sir—No one, no not one—man, woman, or child—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much used in this vicinity although not known until recently. The community should know its virtues. Yours truly,
JOHN R. KELLOGG, M D

What yet remains to convince the most incredulous that the *Cherry Pectoral* is all that it purports to be, viz: an unequalled remedial agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such, and we submit it to the people, believing that its virtues will fully maintain its reputation.

DR. ORDWAY'S
HUMOR DISCOVERY,
—AND—
BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficacy, to put it within the reach of all.

He has now added to it an *Herb discovered in California*, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the man in a few days.

The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.

Discovery of the California Herb.

About the first of March, in the year 1849, Dr. Kelley sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practicing in the vicinity of Auburn, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.

While doctoring a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved while in a quarrel with some miners) came with an Herb which he called "*Tuba-wachema*," (which means will cure,) he told him to give the "*umbra*," (man). The effect he found to be new and wonderful, curing the man in a few days.

He afterwards used the Herb in his practice, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Sores, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *alterative and Purifier of the Blood.*

The above is in substance the discovery and medicinal properties of this useful Herb as related by Dr. Kelley, on his return.

Upon trial, its virtues have been found to far exceed its reputation as the most valuable Medical Herb yet discovered.

Hear a Mother's Voice from the Granite State.

DR. ORDWAY: Dear Sir—Since we have kept your medicines for sale, we have used several bottles of your Blood Purifier in our family, and from the effects produced we believe it to be an invaluable medicine.

I wish to inform you particularly what it has done to our little boy, (who is now six years of age,) and has been a feeble child from his infancy, on account of being afflicted with *inward humor*, producing *Indigestion*, and consequently, at times, great *Emaciation and Exhaustion of the system*. One year ago last summer and fall he was severely afflicted with *Canker in his mouth and throat*, so much so that it was distressing to witness the sufferings of any of the little sufferer while trying to eat the softest food. I did not know what course to pursue with him, but finally concluded to make a trial of your *Blood Purifier* and commenced giving it to him about the first of December. I am happy to say that by taking one bottle his *mouth was free from canker*, and his health was improved very fast, and after taking three bottles in succession, he (for the first time in his life) appeared to be in perfect health, and remained so until he was seized with the influenza in April, which left him with a severe cough, but we succeeded in relieving that in a few weeks. In July he took cold and his cough came on again worse than before, he was troubled with Indigestion and loss of appetite, and so much was emaciated that my friends were afraid he was going into a decline.

As soon as his cough was relieved, we commenced giving him the *Purifier* again to restore his health, and in a short time he began to gain fast. And by the blessings of Almighty God, he is now and has been for two months past, the picture of health.

I can confidently recommend the Blood Purifier to all who are afflicted with humors in any form.

We have also made use of the Purifier as a restorative after being reduced low by fever, and believe it to be the very best of Medicines in all such cases, for regulating the secretions, and removing all morbid matter from the system, and restoring health and vigor.

Wholesale Soap Establishment!
AMERICAN CREAM SOAP COMPANY.

Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the LAWS OF THE U. STATES, A. D. 1851.

CHAS. W. LENNISON & CO.
PROPRIETORS FOR THE STATE OF MAINE.

C. W. D. & CO. are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co., in all their varieties, at their Factory,

Nos. 3 & 33 UNION ST., Portland, Me.,
CONSISTING OF
American Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans. Toilet, Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c., &c.

These Soaps are presented to the public, after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.

They do the work of the Laundry in *simply warm water*, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Washboard—consequently a large amount of Fuel and wear and tear of clothing is saved, and not one fourth the amount of Labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the hold of the dirt, without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds sufficient to cover them—there let them remain a few hours, (or all night if convenient,) then, with a slight hand rubbing and good rinsing, they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls, &c., may be washed with perfect safety. Cotton Goods, Prints of any color that will fade in water alone, when washed with these Soaps, according to the directions, will not change, but remain firm, and the colors rendered more brilliant. For washing Woollens, Prints, Gilding, Mirrors, Maps, Paintings, Lamps, Silver Ware, &c., &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used, and besides this, the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c., &c., and the necessity of boiling, is wholly avoided.

We ask for this Soap a fair trial, choosing to trust to its own merits rather than resort to the publication of a long list of certificates from those who have used it wherever it has been manufactured, which we have in our power to do were it necessary.

For sale, Wholesale *only*, at 31 & 33 Union Street, Portland, and retail by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C. W. D. & Co., postpaid, Nos. 31 & 33 Union Street, Portland, Me., will receive prompt attention.

MEDICATED INHALATION.
A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseases of the Lungs never before witnessed by the medical profession. See certificates in hands of Agents.

The Inhaler is worn on the breast under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.
BROOKLYN, N. Y., Dec 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the last six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it.
MARGARET EASTON.

CONSUMPTION CURED.
NEW YORK, Dec. 27th, 1853.

I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city my health was very poor; had a bad cough, raised a good deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

Citizens of the Union!

You have done me the honour, as with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter from Mr. W. J. Langley, of Huntsville, Yadkin county, North Carolina, U. S., dated November 1st, 1853.

READ HIS OWN WORDS.

To PROFESSOR HOLLOWAY:

SIR,—It is not my wish, to become notorious, neither is this letter written, for the mere sake of writing, but to say, that your Ointment effected one of the most extraordinary cures of cutaneous disease that flesh is heir to, and which was considered by all who knew me to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine that I heard of, I resigned in despair all hope of being cured, but a friend brought me a couple of large pots of your Ointment, which caused the sores on my legs to heal, and I entirely regained my health, to my agreeable surprise and delight, and to the astonishment of my friends.
(Signed) W. J. LANGLEY.

AN EXTRAORDINARY CURE OF A BAD BREAST WHEN NEARLY AT THE POINT OF DEATH.

To PROFESSOR HOLLOWAY, 38, Corner of Ann and Nassau streets N. Y.

Dear Sir,—It is with heartfelt gratitude I have to inform you that by the use of your Ointment and Pills, the life of my wife has been saved. For seven years she had a bad breast, with seven running wounds, (not of a cancerous nature) and was told that nothing could save her. She was then induced to try your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your medicines from Messrs. Wright & Co, of Chartres street, New Orleans. I send this from Hôtel des Princes, Paris, although I had written it at New Orleans, before we finally left, at that time, not knowing your address at New York.
(Signed) R. DURANT.

AYER'S PILLS.
FOR ALL THE PURPOSES OF A
FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system, as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity, but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins, for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

For centuries, Medical science has been seeking for vegetable and mineral known ... something that should ... energies of the nervous and muscular system, without the drawback of subsequent prostration, which follows stimulants, tonics and narcotics ... *That something has been found.* It is vegetable production, brought from the stony deserts of Arabia Petræa, by the celebrated Professor Morse, well known as a distinguished member of the ... The feeble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so often trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease *as it exists*, without reference to causes, and will ... remove the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic doloreux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or structural diseases it is averred that

MORSE'S INVIGORATING ELIXIR

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness; indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own.
